3CX awarded 2023 "Best Technology Partner"

This year’s VoipVoice 2023 convention, **"Nati per Comunicare"** welcomed partners from all over Italy in the Teatro della Pergola in Florence - a fitting choice due to its historical significance. This is in fact where Antonio Meucci installed the first acoustic "telephone" ever invented - right here in this theater! No better place for talking about the future of digital telecommunications!

VoipVoice Convention 2023

3CX awards

It used to be Pink Floyd singing **"Another brick in the wall"**, today it's us. 3CX had the honor of being awarded **"Best Technology Partner"** by VoipVoice. This marks another addition to our impressive string of awards received in the past years, as well as the awards 3CX will undoubtedly receive in the future - it really is the case to sing **"Another PRIZE in the wall”**.

3cx award

We would like to take this opportunity to thank VoipVoice for this important award. This will further incentivize us to continue ensuring that 3CX remains a top market leader in the industry.
