

3CX awarded 2023 "Best Technology Partner"

This year's VoipVoice 2023 convention, "**Nati per Comunicare**" welcomed partners from all over Italy in the Teatro della Pergola in Florence - a fitting choice due to its historical significance. This is in fact where Antonio Meucci installed the first acoustic "telephone" ever invented - right here in this theater! No better place for talking about the future of digital telecommunications!

VoipVoice Convention 2023

3CX awards

It used to be Pink Floyd singing "**Another brick in the wall**", today it's us. 3CX had the honor of being awarded "**Best Technology Partner**" by VoipVoice. This marks another addition to our impressive string of awards received in the past years, as well as the awards 3CX will undoubtedly receive in the future - it really is the case to sing "**Another PRIZE in the wall**".

3cx award

We would like to take this opportunity to thank VoipVoice for this important award. This will further incentivize us to continue ensuring that 3CX remains a top market leader in the industry.
